

A decorative cluster of blue butterfly silhouettes in the top left corner, arranged in a roughly triangular shape pointing downwards and to the right.

Butterfly Kisses

Send a special flutter to one another

To help brighten up our aged care homes and allow families to communicate with residents and residents with their families, we are asking that you send a butterfly kiss. You can send a kiss to someone special or send a kiss just to brighten a day.

How it works

Get all the members of your family to colour in a butterfly. Be as creative as you wish. Add your favourite colours and textures. Don't forget to leave a special message. Then you can simply scan and email or post it back. We will also have a butterfly box out the front of each facility if you wish to spread your wings and drop them off.

The butterflies will be put up in the resident's room, hallways and staff stations as a reminder to stay bright. Residents will be able to spread their wings and get creative by sending butterflies back to family members as a way of keeping in touch.

Print the Templates

Attached are 16 amazing butterfly templates for you to use. Just pick and print your favourite and get creative.
